West Cumbria Sites Stakeholder Group (WCSSG)

The WCSSG is an independent body whose role is to provide public scrutiny of the nuclear industry in West Cumbria.

The group – which includes representatives from local government, regulators, unions and community groups – meets quarterly. Its six sub-committees scrutinise detailed aspects of the Sellafield and Low Level Waste Repository sites, including operational issues, environment health, emergency planning and socio-economic impacts.

The public is invited to attend all meetings. For further information, visit the wcsg.co.uk website or contact the secretary on 019467 85802.

Please note: Dates and venues could change and it would be advisable to confirm arrangements with the relevant contacts prior to the meeting:
