Workshop planning

Ron and Steve will be on holiday and unable to attend. Geraint will also be unavailable and asked that Donald Urquhart should attend.

It was emphasised that all attendees would need to understand the context of the NDA and its potential effects of the industry.

Suggestion: a press release should be issued after the workshop to start publicising the work of the sub-committee.

Discussing communications tools, it was suggested that an independent editorial overview was in place to avoid British Nuclear Group/ UKAEA bias. Elaine agreed to take this role. Shirley promised to have a first pass of the top level SLLC LCBL explanation document available for discussion at July meeting.

Steve suggested that the Stakeholder Dialogue methodology for considering options/ implications of issues should be considered as part of the stakeholder engagement approach for the LCBL.
