

Summary Report to WCSSG Scrutiny Meeting

Commercial sub-committee meeting on 18th December 2010.
Full minutes of the meeting are available on the WCSSG website.

- **Key items discussed**

- Joint presentation from NDA and NMP on commercial arrangements between the two parties, including how fee is earned.
- SL performance updates from key plants.
- Reachback, pros and cons, benefit brought by having expertise from all over the world.
- Update on SMP and the new rod line project.
- Improved performance in terms of accidents stats. 6 million man hours achieved without an LTA.
- Sludge removal timescales.

- **Issues**

- Pipebridge Issue affecting Magnox Reprocessing.
- Possibility of new reprocessing contracts.

- **Actions required**

1. Peter Buchan to provide answer for Martin Forwood to a question on the amount of Mox fuel to be reprocessed in Thorp.
2. Ian Gordon to look to provide an answer for Martin Forwood as to the quantity of Mox fuel recycled through SMP.
