

# RECALL

Past Experience helping the Present

## EBM & Steve's approach – 'stakeholder' working

- Independent - on behalf of all parties

## Nuclear Experience

- BNFL National Stakeholder Dialogue
- Cricklewood resolution
- NDA – prioritisation, materials & spent fuel disposition

## Driver for RECALL - losing past experience.

- Industry/NDA concerns about loss of expertise
- Decommissioners seeking help from retirees
- *Brent Spar* disposal - past expertise needed

## RECALL - the 'Vision'

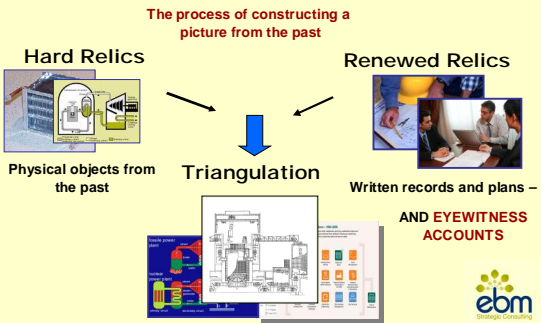

- CAPTURE: knowledge, wisdom and experience of nuclear experts and operatives...
- RECALL: to improve future operations and inform decommissioning decisions

## Recalling the Past

The process of constructing a picture from the past

## RECALL - the NDA pilot

- 2006/7 – pilot project for NDA
- Interest from SLCs
- Results - conclusions and protocols

## Conclusion

- Put the people before the IT 'platform'

## IT Uncertainties

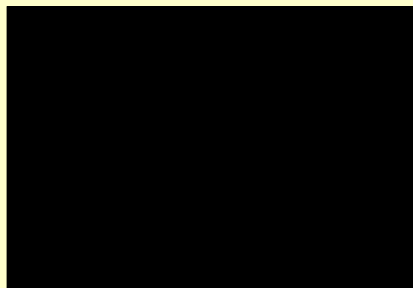

- .. Search Technologies
- .. Archiving Strategies
- .. Budgets
- .. User needs
- .. Long term value
- .. ?

- .. But they're improving...

## If you don't record now...

## RECALL - Essential Protocols

- .. User Confidence
- .. Contributor Confidence  
- no edits!
- .. Targeted Capture  
- it's not a random brain dump!

## LLWR RECALL - Phase 1

- .. Great Eight interviews
- .. More candidates sought for Phase 2
