#### **NDA STRATEGY CONSULTATION**

**On behalf of the West Cumbria Sites Stakeholder Group (WCSSG) I would like to thank you for the opportunity of commenting on your draft strategy. You will see from the content of our response that this is greatly appreciated by our organisation.**

**The WCSSG exists to provide a forum for representation of community interests and is the interface between the community, the site operators and the NDA. In developing our response, we have tried to reflect the views of members and of the general public as expressed in public meetings. However, a number of our member organisations will also respond to this consultation in their own right.**

**Although this response is in written format, the WCSSG would welcome the opportunity to continue the dialogue that began with the presentation given to the group's public meeting in October by David Hayes. This dialogue demonstrates to the community that the NDA is willing and committed to real engagement on its strategy. We would appreciate the opportunity of discussing how to take this forward and develop a visible, close relationship with the NDA.**

**Yours Sincerely**
